Profile

A developer with a journalist soul, with a strong interest in new technologies. My experience in the world of journalism and business communications allows me to work as a bridge between technical and non-technical areas, in order to achieve the best result in every project.

Skills

Experience Developer

More than 5 years working as a wordpress/frontend developer and tech. consultant

Focus

on communication

Always searching ways to improve the interaction between tech and non tech areas. Constantly looking for feedback to improve

Desire to master JS

Focusing right now in learning everything I can to get more deep in Javascript World.

Technical

HTML

React

Typescript

CSS3

React Native

Node.js

Sass

Ionic

PHP

Javascript

Three.js
